

Data and research

Data is key to our work and, when used properly, we believe it can help services and clinicians to provide excellent patient care. We use the data we collect as part of our various projects to help us make decisions and, where appropriate, share it with services, clinicians and stakeholders for research and service evaluation.

How to apply for JAG data

We are committed to sharing the data we collect to enable and facilitate research and service evaluation. The [process for applying to JAG data](#) is shown below:

If you would like to apply for data, please complete and return [the application form](#).

What type of data can I request?

JAG collect data relating to our various programmes. The type of data that we can share for research and service evaluation is outlined below.

Data source	Data type	Type of data available
JETS	Trainee and trainer	<ul style="list-style-type: none">Number of trainees achieving JAG certificationNumber of training lists providedDOPS completion and scoring procedure numbers
NED	Endoscopy data	<ul style="list-style-type: none">Number of procedures completedNumber of endoscopists
JAG	Service data	<ul style="list-style-type: none">Accreditation status of services
BCSA	Screeener accreditation	<ul style="list-style-type: none">Number of accredited screening endoscopists
